

SAACKE Combustion Services Limited

ENVIROMENTAL POLICY

SAACKE Combustion Services Limited at Havant, Hampshire design and supply Combustion and Energy Systems for home and selected export Markets and provide extensive commissioning and field servicing facilities for both land and marine-based installations.

It is the policy of SAACKE Combustion Services Ltd to seek, develop and supply products which, when all aspects of their manufacture, use and effectiveness are considered, present minimal detrimental effect on the environment.

SAACKE Combustion Service Ltd undertakes:

- To pay attention to the continual improvement of protection of the environment and reduction of pollution in developing its business.
- To ensure compliance with relevant legislation and other requirements.
- To maintain a continuous technology improvement programme in relation to environmental problems and to make sure that the Company's products and raw materials minimise their impact on the environment.
- Ensure the Health and Safety of the public and of the Company's customers and employees.
- Minimise the creation of waste, purchase and recycle environmentally friendly materials wherever practical. Hazardous waste and effluents will be disposed of in a safe and controlled manner.
- To make employees aware of their individual responsibilities for acting in accordance with this Environmental policy and encouraging them to contribute to its objectives.
- To provide appropriate training for all employees (as applicable).
- To review this policy on a regular basis to monitor changes in legislation and work practices.

Yours sincerely
